Intern/Work Abroad Resources/Programs

Interning abroad allows you to gain work experience related to your major or future career. Some programs are attached to study programs so that credit and financial aid is available. Other internships are not attached to study programs and are often unpaid, but may offer compensation like room and board. Working abroad is another option that allows you to get paid while being culturally and linguistically immersed. Some programs offer assistance with work visas and placements.

Resource Websites

AIESEC

International student organization that places students in internships abroad

Going Global
Access Going Global via Wildcat Careers: https://unh-csm.symplicity.com/
GG button is right on the Wildcat Careers home page, it can be used to look for jobs internationally (or domestically). Search by country to find out about visa requirements and gain insight into cultural norms and employment trends.
